OBJECTIVE

Results-driven Frontend Developer with 3.1 years of experience in implementing user-friendly web applications. Proficient in HTML, CSS, JavaScript, React.js, Tailwind CSS, and Next.js, dedicated to creating responsive and visually appealing interfaces. Eager to contribute my technical skills, experience and passion for frontend development to enhance user experiences and drive project success within a dynamic team.

EXPERIENCE

Associate Software Developer   Feb 2022 - Present
Scubeelate Technologies Pvt. Ltd.   *Bangalore, India*

- Crafted responsive and performant user interfaces using ReactJS, Hooks, Redux-Toolkit, NextJS, and Tailwind CSS, delivering seamless cross-device experiences.
- Optimized UI performance, reducing load times and improving key interaction speeds for a scalable, user-centric application.
- Demonstrated project leadership by independently managing multiple frontend projects from initiation to deployment.
- Collaborated effectively with designers and backend engineers to ensure the seamless integration of UI elements, fostering cross-functional alignment.
